

# Building Age Labelling

There are 100 photos of various building facades. Please examine each one and estimate its age: pre-1940s, 1941-1970, 1971-1990, and 1990+. If you are unsure, please give your best estimate. If you see more than one building present, please select the building that is in the most focus. If you can only see part of the building, please try your best to estimate based on what you can see.

**Please note - in the survey below - 1999+ is equivalent to 1990+.**

Each survey will be shuffled - the identification number has no relationship to age.
